

Standard Operating Procedure (SOP)

OE Reliance Digital Twin

End User Guide

Document Owner: DTC

Applicable To: OE

Organization: KSB Limited

Version: 1.0

Date: 04 August 2026

1. Purpose

This SOP explains how to use the OE Reliance Digital Twin solution to extract data from Pump and Motor Datasheets and generate a populated Excel output.

2. Prerequisites

- Access to the All Transfer shared folder.
- Pump/Motor Datasheet PDF.
- Corresponding blank Excel template.

3. Folder Structure

```
All Transfer
├── AI_Based_BOM_Checker
│   ├── Digital_Twin_Reliance_Copy
│   │   ├── Input
│   │   │   └── \\10.9.30.20\\All Transfer\\AI_Based_BOM_Checker\\Digital_Twin_Reliance_Copy\\Input
│   │   └── Output
│   │       └── \\10.9.30.20\\All Transfer\\AI_Based_BOM_Checker\\Digital_Twin_Reliance_Copy\\Output
```

4. Naming Convention

File Type	Naming Requirement
Pump PDF	Filename must contain PDS
Motor PDF	Filename must contain MDS
Pump Excel	Filename must contain Pump
Motor Excel	Filename must contain Motor

5. Procedure

- Step 1:** Copy the Pump/Motor Datasheet PDF into the Input folder.
- Step 2:** Copy the corresponding blank Excel template into the **Output** folder.
- Step 3:** Ensure both files follow the required naming convention.
- Step 4:** Wait for the scheduled process to execute.
- Step 5:** Open the Excel file in the **Output** folder.
- Step 6:** Verify that the required fields have been populated.

6. Expected Output

The blank Excel template will be automatically populated with the extracted data from the uploaded datasheet.

7. Important Guidelines

- Upload only supported PDF datasheets.
- Do not modify the Excel template structure.
- Do not rename files after uploading.
- Ensure only the required files are placed in the Input and Output folders.
- Allow sufficient time for the scheduled process to complete.

8. Troubleshooting

Issue	Possible Reason
Excel remains blank	Scheduler has not yet executed
No data extracted	Incorrect naming convention
Incorrect output	Wrong Excel template uploaded
Processing failed	Unsupported or unreadable PDF

9. Flowchart
